## A DREAM OF GREATNESS.

Tuesday's *Advertiser* seems to dream of Hawaii nei becoming the commercial centre and the political capital of this great ocean. This dream has been dreamt before; but clear-headed, unpoetic, matter-of-fact men have smiled incredulously at its recital. Certainly, "intelligence and enterprise need not and will not confine themselves to the narrow limits of the islands." As a matter of fact, they do not. "Intelligence and enterprise" may be found on other islands in this ocean at the present time, and they are not indebted to these islands for their origin nor dependent on them for their further growth. Neither is it probable that the "intelligence and enterprise," which are sure eventually to encompass every island and islet of the "vast surrounding ocean," will ever consent to be controlled and ruled by this group. Hawaii's true policy is to confine her attention to herself, and strive to "take rank with nations that command respect and consideration," by enlightened and judicious management of her own affairs and the development of her own resources. Patient and faithful adherence to this policy will ultimately result in the Hawaiian Kingdom being "no longer a mere nominal State;" whereas a Napoleonic policy of conquest and acquisition would most likely end in "vaulting ambition overleaping itself and falling on the other side."

## ALOHA NUI!

To-day is His Majesty's 46th birthday. We are to enjoy a day's sport in regattas and boat-racing, and private picnics and parties have been arranged in honor of the day. It must indeed gratify His Majesty to see how his subjects are preparing heartily to enjoy themselves for the occasion.

We wish for ourselves—and we know for our readers also—not only our ALOHA NUI for this occasion, but many happy and prosperous returns of it to His Majesty.

## CAPTAIN DUTTON'S LECTURE.

On Tuesday evening by invitation of the Committee of the Library and Reading Room Association, a large number of people assembled at the Music Hall to listen to Captain Dutton's lecture on "Rivers." The lecturer was introduced by Prof. Scott with a few appropriate remarks. Captain Dutton spoke first of the Hudson, Delaware, Susquehanna and other rivers in the Atlantic States which he termed finished rivers, illustrating the method of their working in a very interesting manner. He cited other rivers in the Western States and Territories which are now doing the work long since completed by these Eastern rivers, wearing their water courses down slowly but surely. He described very clearly the cutting power of the sand and debris carried by streams, and alluded to instances where the cutting of channels had been so rapid as to make a perceptible change in the course of a few months. He explained many interesting phenomena of different rivers in various parts of the American Continent, and although only able to touch briefly on the different points in such a short lecture, imparted much valuable information to his attentive and appreciative audience who received his remarks with loud applause.

## B. R. R. A.

These mystic initials pertain to the Boy's Reading Room Association. The Association gave its first annual dinner on Tuesday evening at Mrs. Monsarrat's residence. The only invited guests were representatives of the press.

At 8 o'clock the members and guests sat down to a sumptuous repast, provided for by special subscription amongst the members and their relatives, so as not to encroach on the funds of the Association for any other than a legitimate purpose. The chair was taken by the Presi-

dent, Mr. C. A. Brown, and during the evening the most varied toasts were given and responded to, until every person present had spoken at least once. Some very nice songs and choruses were sung, and the utmost harmony and good feeling were visible. The room was draped with Hawaiian, American and English flags, kindly lent for the purpose.

The prosperity of the society was shown by the facts that at the start there were only 7 members, and now there are 21, and there is a balance to their credit in the bank. It is a good thing to see our boys have so much enterprise and stability as to initiate an affair of this kind and keep it going on so prosperously. We trust that they will never lack the support and continuance of their friends and relatives, and will go on adding to their list of members from time to time.

## OUR FRIENDS' TIPS.

For the King's Cup; Kahlilani, Sarah, Pauline. Liliuokalani Purse; Koahehe. Public Purse; Kekaa, Amateur Purse; Kapuaala, Kanee-lani. Yacht Race 2d Class; Pauline, Pumpkin Seed. Queen's Cup; Kapuaala. Likelike Purse; Kapuaala. Kalakaua Purse; True Blue.

The above may be relied on as the best tips as far as boating men will give their true opinion.

**EDITOR BULLETIN:**—Will you kindly allow me to correct an error which occurred in one of the editorials of the *Gazette* yesterday. In the article on "Stallions," reference is made to the Law of 1868. I find that sections 118 and 119 of the Civil Code were repealed in 1880. The repeal was not noted in the copy of the Civil Code which I had, though the amendment was. By giving publicity to this, you will oblige,  
Yours faithfully,  
ALATAU T. ATKINSON,  
Editor *Gazette*.

## SHIPPING NOTES.

The Kahlilani sailed round the harbor yesterday afternoon, and surprised the spectators by her speed.

## LOCAL AND GENERAL ITEMS.

The Band will lead the Kaunakapili Y.M.C.A. this morning.

The Band played some very fine tunes at the reception yesterday.

SEVERAL luau and picnics will be held to-day.

THE regular monthly meeting of the Y.M.C.A. will be held to-night in the Bethel Vestry, at 7:30.

A really elegant new 'bus has just been finished by Mr. West for Mr. James Dodd. It will be used to-day for the first time.

THE Committee of the races have secured the use of the James Makee during the races. The Band will play on board.

It was a noticeable fact that the business men of the town and the leading foreign population were absent from the reception yesterday.

SOME of our churchgoers would like to have the 'busses have leather-washers put on the wheels, as they make so much clatter when they drive up during the service.

THE new buildings erected by Mr. N. F. Burgess on King street, are to be occupied by Mr. Turner, watchmaker, and Mr. Pickering, with general merchandise.

THE public are notified that the Committee wish the course kept clear to-day. This is a wise course, and we hope the Committee will see to it, for nothing is more annoying than to have races stopped or prolonged by unnecessary impediments.

THE latest dodge in the dairy line. Owing to the remonstrances of customers during the recent heavy rains the cows' backs have been shingled because the intelligent customer likes less rain and more lacteal fluid in his milk.

(Communicated.)

Retailers complain of dull times. No wonder when there are about 200 laborers in want of employment, it may be asked, why don't they go to the plantations? They are natives and know how laborers are treated by the planters.

The Torchlight Procession last evening was a brilliant affair.

OUR readers have no doubt noticed the fact that Mr. F. S. Pratt has admitted Mr. L. J. Levey into partnership with him in the Auctioneering business. We notice that their first sale will take place on Friday. We hope they will meet with their due share of success.

YESTERDAY morning the police force, under Capt. W. H. Tell, marched along King street, from the Station House to the Palace, and after performing some military evolutions presented their aloha and an address to His Majesty. The marching and other evolutions were extremely creditable to their instructor, Capt. W. Tell.

THE last Portuguese immigrant left the depot yesterday and went up to Kohala on the Likelike. She came out here as a single girl and one of her countrymen at Kohala hearing of her came down and proposed to marry her. She accepted him and on Tuesday the ceremony was performed at the Roman Catholic Cathedral, after which the happy pair proceeded to Kohala.

MR. FURNEAUX has spent the time since his arrival from Hawaii in sketching at Waikiki. He will be in town next week, at Dr. Whitney's rooms, where his friends will have an opportunity of seeing his new works, which are in no way inferior to the old ones. We think that some of these paintings would form most artistic and generous Christmas gifts. It seems to us that the opportunity should not be lost.

MANY people here do not read the *P.C.A.* weekly, because they have already read the daily. However, some have noticed the insidious tendency lately of articles appearing only in the weekly, and intended for readers abroad. The tenor of these articles is to represent the *Tiger* as a religious, friendly-to-the-missionary-party paper, and the opposition press as consisting only of one paper, the *Gazette*, and that unreliable. Steps should be taken to prevent these false ideas going uncorrected, as the *Tiger* is zealously circulated in the United States.

## THE EVILS OF PAINTING

And their Remedy.

"It has been said with much truth, too, that house painting might, with study and acquirement of taste, resume its rank as a liberal art."—*Painters' Manual*.

Believing the above to be true, A. B. KERR has now re-organized his system of working the business in Honolulu. In the first place he has secured the services of that celebrated artist, Mr. MAX KORN, formerly of San Francisco, whose work in the line of plain and decorative paper-hanging, frescoing, &c., is up to the present time unsurpassed, and on these Islands has never been equalled. For house painting jobs first-class mechanics only will be employed. In future patrons can depend upon my filling every order on the most scientific basis known to the trade.

The Sign Painting and Lettering department will be permanently presided over by Mr. GEO. STRATMEYER, (further comment unnecessary.)
